

SHIVAA.AI
FUTURE OF HIRING

Screening Automation Tool

Revolutionize your resource acquisition process with AI!

Welcome to the future of hiring!

With the power of AI, we can transform the way you acquire talent, making it faster, smarter, affordable and more efficient than ever.

THE PROBLEM

If you need to hire a resource from hiring portal,
you will select 100 resumes

Now CTO needs to shortlist the candidates which will take his precious 2-3 hours

3 hours of CTO x 30\$/hr = 90\$

After shortlisting 20 resumes now HR conducts screening round of every candidate which will take 30mins/profile= 10 hours

10 hours of HR for 20 interviews x 15\$/hr = 150\$

SHIVAA.AI will automate the process of screening by shortlisting resumes based on JD. Then, proceed towards scheduling and conducting the interviews

That's how we can help you save upto 200\$ per profile

ADVANTAGES

- Revolutionize your recruitment strategy with advanced AI technology.
- Say goodbye to tedious manual screening processes and hello to streamlined talent acquisition.
- With customizable features tailored to your specific needs, you'll discover the perfect fit for every role faster than ever before.
- Stay ahead of the competition and unlock unparalleled efficiency and accuracy in your hiring efforts.
- Keep a track of candidates and their skill so that for same position you do not have to screen the profiles again.

HOW IT WORKS

This is how you can seamlessly integrate with the current system

- **Identify the requirement and create a JD for the same- Profile of the candidate.**
- **Basis the profile shortlist the resume from job portal**
- **Upload the resumes and JD on Shivaa.ai's platform.**
- **We will shortlist the resumes based on JD and once confirmed we can trigger invite to the candidates.**
- **It schedules interviews, syncs with calendars, and sends reminders.**
- **At the scheduled time our bot will conduct the interview and collects the analytics, video and transcription of the interview!**

AI SCREENING

- **Efficiency Boost**

Minimize manual screening through AI automation

- **Improved Accuracy**

Identify top talents with advanced machine learning algorithms

- **Time-saving Solution**

Reduce recruitment cycle time and focus on quality candidates

SMART MATCHING

- **Advanced AI Matching**

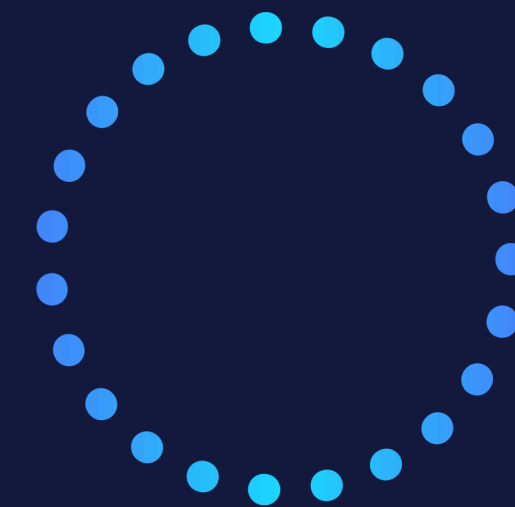

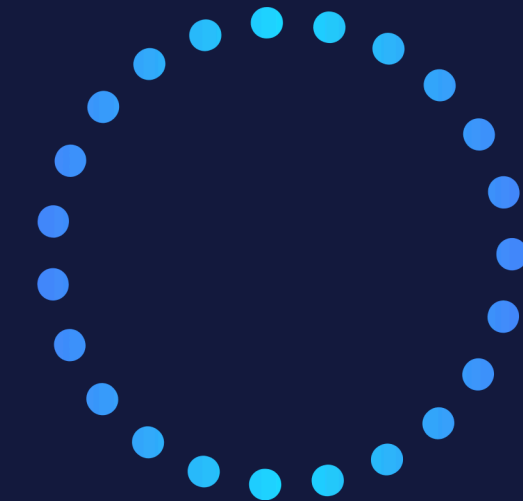

Find the perfect match for your business needs effortlessly.

- **Accurate and Efficient**

Save time and make data-driven decisions with precision.

- **Eliminate Bias**

Ensure fair and inclusive hiring practices with AI-powered solutions.

RESUME PARSING

An intelligent tool for modern recruiting, enabling recruiters to effortlessly sort through an ever-growing number of job applications.

Our system can process hundreds of resumes in seconds, saving you a ton of valuable time and effort.

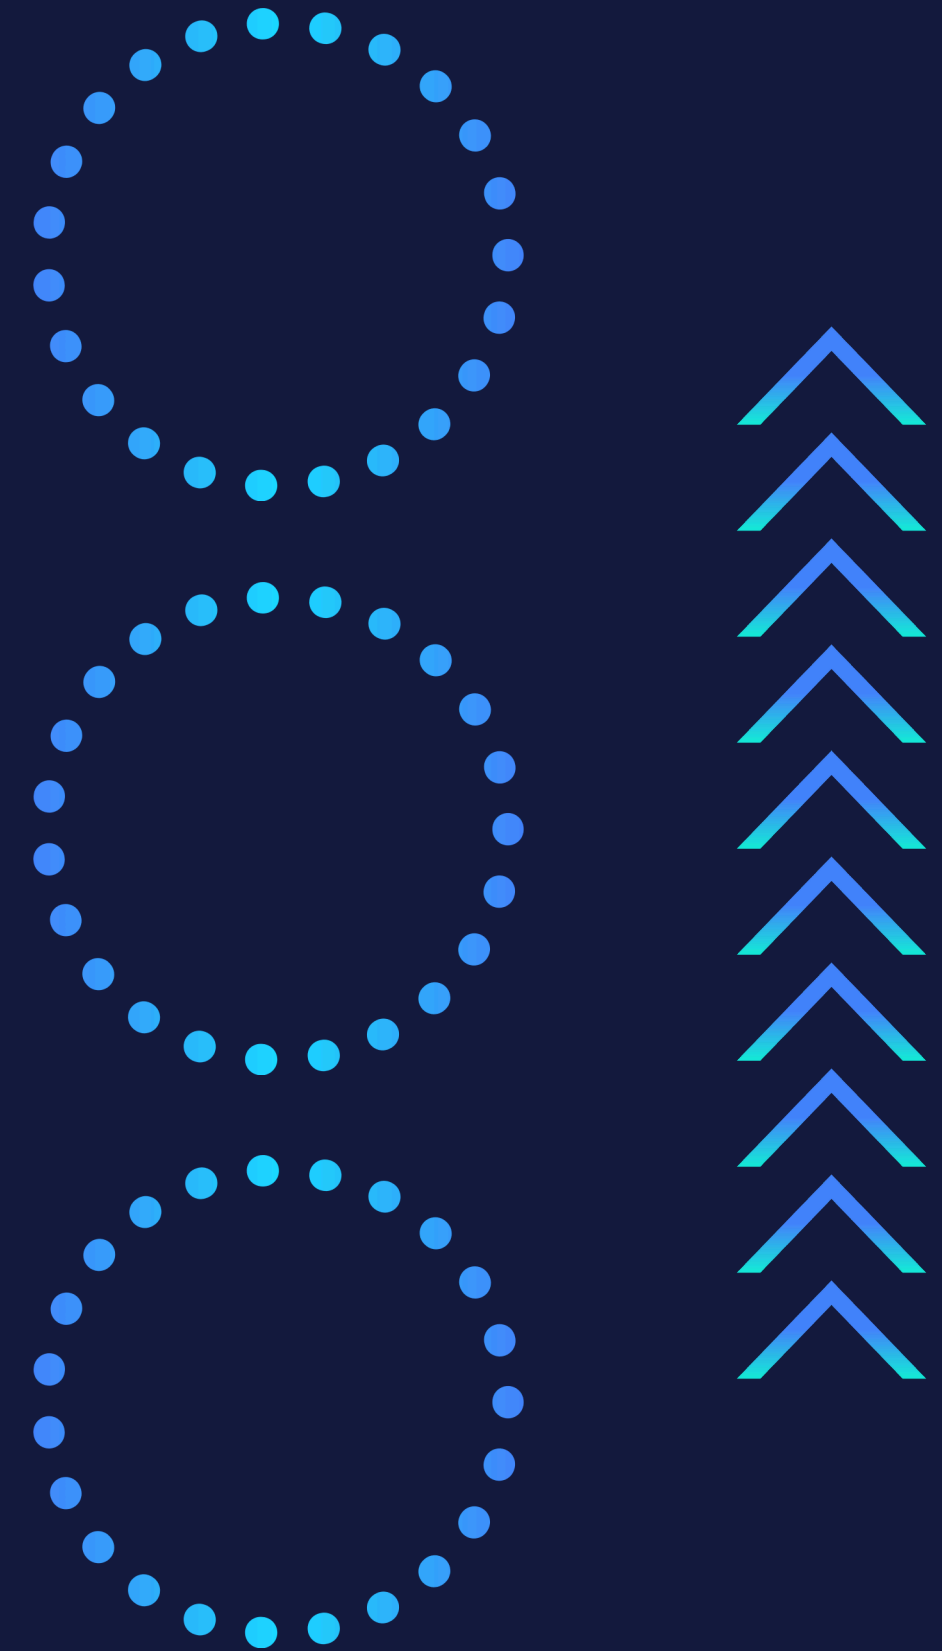

AUTOMATED BOOKINGS

Automated bookings simplify scheduling processes by allowing users to book appointments, services online.

Users can access booking systems 24/7, enhancing convenience and accessibility.

Notifications and reminders streamline communication, reducing no-shows.

Integration with calendars and streamlines operations.
